Head and Neck Cancer Screening on the Upper East Side

Thursday, July 24, 2025
9:00 a.m. to 12:00 p.m.

David H. Koch Center for Cancer Care at Memorial Sloan Kettering Cancer Center
530 East 74th Street, 17th Floor

No appointment or insurance necessary.

What is head and neck cancer?

This type of cancer can occur in the nasal passages, mouth, throat, or voice box.

What does a screening involve?

- In the exam, a specialist will look for signs of head and neck cancer.
- Resources will also be provided on quitting tobacco, nutrition, and vaccination against human papillomavirus (HPV).

What are the warning signs?

- Sore or lump that doesn't heal
- A persistent sore throat
- Trouble swallowing
- Changes in the voice

Who should be screened?

Adults who have noticed any of the warning signs of head and neck cancer, and/or who have a history of:

- Smoking or chewing tobacco
- Drinking alcohol
- Exposure to humanpapillomavirus (HPV)
- Excessive exposure to the sun (sunburns)
- Radiation to the head and neck area
