November Webinar
When is a Headache an Emergency?

Most headaches are nothing to worry about. But some headaches do need care right away.

Join our educational webinar from Weill Cornell Medicine to learn how to tell an everyday headache from a dangerous one. Dr. Amol Mehta of Weill Cornell Medicine will walk you through the warning signs of an emergency headache and how new treatments are improving care.

November 2nd, 2026 at 12pm EST

This webinar will provide expert medical insights alongside practical support resources.
